- Plans must be submitted to and approved by the District Engineer and/or District Operator prior to commencing construction
- Applicant to provide site plan showing proposed location of building and underground utilities.
- Owner or his Contractor is responsible for obtaining all permits and approvals prior to commencing construction. Copies of any applicable permits are required prior to scheduling tap and meter installations within County Right-Of-Way.
- Commercial applicants must submit the Civil and Plumbing plans in PDF.
- Owner or his contractor shall install appropriate backflow prevention devices in accordance with state plumbing codes or as required by the District's operator. Backflow Test Reports must be available at the time of inspection. Copies of annual test reports must be forwarded to the District.
- Applicant acknowledges responsibility for all required inspections including sanitary sewer inspections. Account will not be transferred until all inspections are complete.
- Applicant acknowledges that failure to comply with the District's rules and regulations governing the District's facilities will result in fines or penalties as may be imposed by the Board of Directors of this District.
- Applicant acknowledges responsibility for the cost of site restoration following the water tap installation.
