BUILDER PACKET

WATER TAPS, INSPECTIONS, SERVICE APPLICATION & INFORMATION

FOR

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 538

Dear Home Builder,

Welcome to HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 538 (The District). The District provides water and sewer services for its customers including setting water taps, performing inspections, making repairs to damaged facilities and billing for monthly water and sewer usage. We also have certain requirements of builders and this packet should explain those and the process to obtain service.

Enclosed, you'll find a Process Flowchart, a list of required inspections and their descriptions and an application for utility service for your completion.

We will need the following before services can be provided:

- 1. Utility Service Application
- 2. Site Plan
- 3. Payment

Please remit payment to:

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 538 406 W GRAND PARKWAY S, STE 260 KATY, TX 77494

Once we receive your payment, site plan, and completed forms, we will schedule our first pre-facility lot inspection to make sure all of the District's facilities (valves, manholes, fire hydrants, storm sewer inlets, etc.) on your lot are in good condition.

Please do not initiate any deliveries of material, lot grading or earth movement, or other activity until this pre-facility lot inspection is completed.

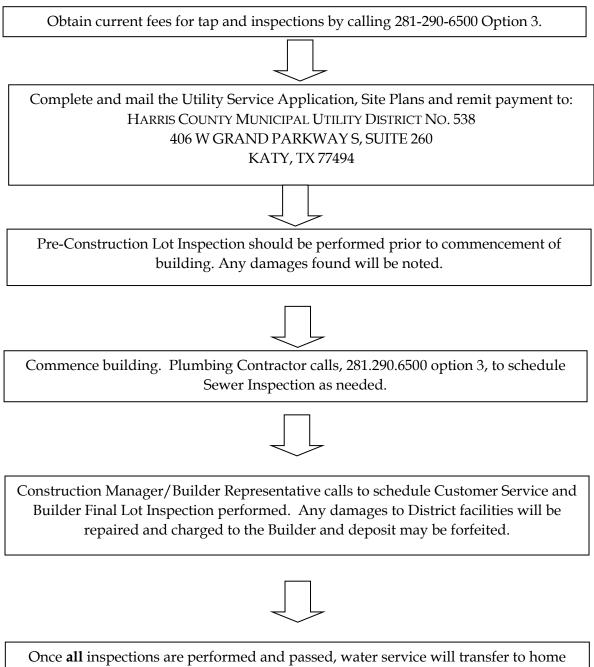

As building proceeds, please call us at **281-290-6500** option 3 or email <u>bldrservices@mdswater.com</u> to schedule subsequent inspections as required.

Harris County Municipal Utility District No. 538

406 W Grand Parkway S, Suite 260 | Katy, TX 77494

Main 281-290-6500 | Fax 281-392-3643 | Builder Services 281-290-6500-Option 3 | bldrservices@mdswater.com

THE PROCESS

Once **all** inspections are performed and passed, water service will transfer to home buyer and deposit will be returned. Please note that the home buyer will not be able to obtain water service account in their name until all inspections are completed.

RESIDENTIAL TAPPING & INSPECTIONS FEES

Fees as of **September 1, 2018** are as follows (Please note that fees may change). Verify current fees by calling us at 281-290-6500 option 3:

DISTRICT INSPECTIONS

PRE-BUILDER LOT INSPECTION-	Performed before all construction work begins. This inspection includes certification of the integrity of all District utilities including hydrants, blow offs, valve boxes, cleanouts, manholes and debris in storm sewer inlets. Builder is not responsible for any damages that may have occurred prior to the commencement of any construction or activity on the lot.
SANITARY SEWER INSPECTION-	Performed after all sewer line work is completed, from the structures' foundation to the District's sewer main or wye, prior to backfilling. Sewer inspections are also performed any time a customer replaces or reroutes their sewer line. These inspections should be ordered by the plumbing contractor only.
CUSTOMER SERVICE INSPECTION-	Performed after all construction work is completed, this inspection includes verification of the proper installation of any necessary backflow prevention device and. or air gap necessary to eliminate potential cross-connections. Also performed when the District becomes aware of any plumbing modifications that are made, or when the District has reason to believe that a cross connection exists.
BACKFLOW INSPECTION-	(Residential & Customer applications)—Performed if the backflow test report is not available when the Customer Service Inspection is performed and or at the builders' request . The completed field copy of the backflow test report must be provided for all testable devices and available prior to or onsite when the Customer Service Inspection is performed
GREASE TRAP INSPECTION/OIL SEPARATOR INSPECTION-	(Commercial applications) Performed after grease trap or oil-separator is set and Prior to backfilling, this inspection includes verification of proper inlet and outlet connections, internal tees with drops, baffle wall(s), and transfer pipe(s),size, and sample well. Grease traps and oil separators are also inspected on a monthly basis to insure that the trap is being maintained per the District's Rate Order.
STORM SEWER INSPECTION-	(Commercial applications) Performed at the tie-in (manhole or inlet) of existing or modified facilities, prior to back filling.
SWIMMING POOL INSPECTION-	Performed after the drains have been installed to verify the proper connection has been made. Filter backwash piping connections will be made to the sanitary sewer system. Also includes verification of the proper installation of any necessary backflow prevention device and\or air gap necessary to eliminate potential cross- connections.
BUILDER FINAL INSPECTION-	Performed after all construction work is completed and contractor is prepared to transfer service to the owner, this inspection includes certification of the integrity of all District utilities including meter assemblies, meter boxes, hydrants, blow offs, valve boxes, cleanouts, manholes and debris in storm sewer inlets. Builder is responsible for any damages that may have occurred during construction.

Inspections require a minimum 24 hour notice and may be phoned in at 281-290-6500 option 3 (Builder Services Department) between 8:00AM and 5:00PM or emailed to <u>bldrservices@mdswater.com</u> Inspections are performed Monday thru Friday. Sewer Inspections are same day when received by 9:00AM.
