

July 1, 2022

Dear Grand Mission Municipal Utility District No. 2 Customer,

The City of Houston and the North Fort Bend Water Authority (NFBWA) have both implemented Stage 1 of their respective Drought Contingency Plans (“DCP”). Given that Grand Mission Municipal Utility District No. 2 (the “District”) is located within the boundaries of the NFBWA, the District is also required to implement Stage 1 of its DCP immediately. Stage 1 requirements include:

- **Water customers are asked to voluntarily reduce water use.**
- **Water customers are asked to practice water conservation and to minimize or disconnect water use for non-essential purposes.**
- **Water customers are requested to voluntarily limit the irrigation of landscaped areas to Sundays and Thursdays for customers with street addresses ending in an even number (0, 2, 4, 6 or 8) and Saturdays and Wednesdays for water customers with street addresses ending in an odd number (1, 3, 5, 7 or 9), and to irrigate landscape only between the hours of midnight and 6:00 a.m. on designated watering days.**

The District appreciates your water conservation efforts and will provide further information in the future once the DCP requirements are further updated.

Board of Directors

Grand Mission Municipal Utility District No.2
